Market Intelligence

ABOUT ENERDATA

Enerdata is an independent research company that specialises in the analysis and forecasting of energy and climate issues. We do this at a variety of different geographic and business / sector levels. Our company is headquartered in Grenoble, France, where we were founded in 1991, and has a subsidiary in Singapore.

Leveraging our globally recognised databases, business intelligence processes, and prospective models, we assist our clients – which include companies, investors, and public authorities around the world – in designing their policies, strategies, and business plans.

- ⇒ **30+ YEARS OF SUCCESSFUL MARKET EXPERIENCE**
- ⇒ **INDEPENDANT, INNOVATIVE, RESPONSIVE**
- ⇒ **RESEARCH CONDUCTED BY SENIOR EXPERTS**

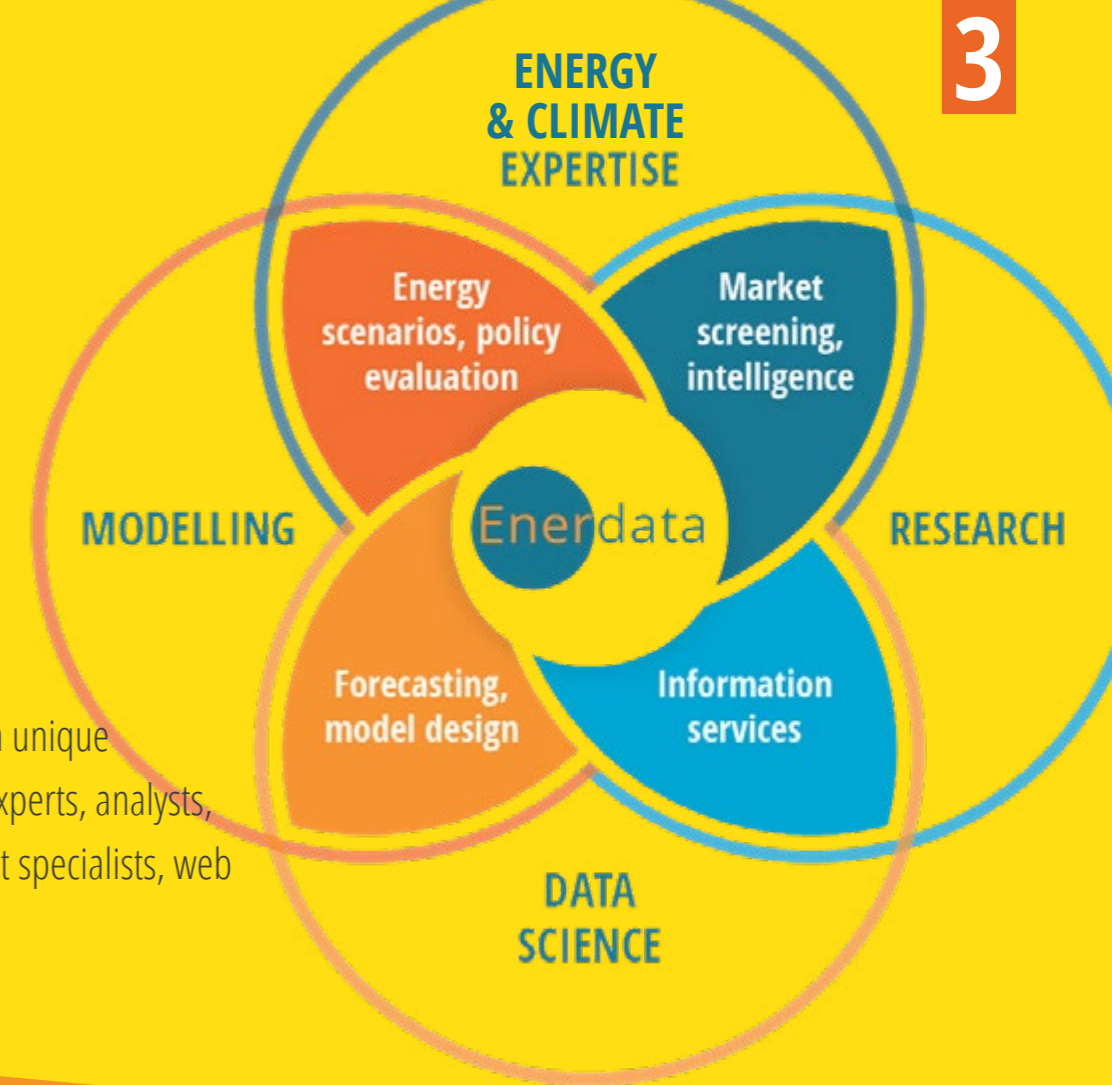

CUTTING-EDGE TOOLS

- ⇒ Exclusive databases & indicators
- ⇒ Databases & intelligence platform
- ⇒ Globally recognised models

WHY ENERDATA?

EXPERTISE

Integrated competencies in a unique international team: energy experts, analysts, modellers, engineers, market specialists, web developers and more...

COVERAGE

- ⇒ Global, regional, country & province levels - 186 countries
- ⇒ All energies: conventional & renewables - incl. new technologies as H₂, CCUS, storage - throughout the value chain: supply, production, transport, distribution, prices, drivers, demand
- ⇒ Energy companies & energy infrastructure approaches
- ⇒ GHG emissions & decarbonisation indicators & indices
- ⇒ Details by sector

SERVING KEY ENERGY & CLIMATE STAKEHOLDERS

- A single access point for all your research - 24/7 online access
- Premium and updated insights in a few clicks
- Intuitive interfaces, interactive graphs, data exports

	SUPPLY	EFFICIENCY & DEMAND	PRICES	EMISSIONS	POLICIES	PLAYERS	ASSETS
DATA & STATISTICS	Annual Energy & Climate					H2 companies	
	Monthly Energy					Power Generation	
		Efficiency & Demand data & indicators				World LNG	World Refinery
FORECASTS	Country Energy demand & forecast						
	Energy & Climate						
			Power Markets				
MARKET INTELLIGENCE	Country Reports						
	Daily Energy & Climate news & analysis						
	Specific Market Reports						

- Independant consultancy for global energy studies at country & sector level
- Teams of international senior energy experts, client driven
- Trust-based relationships with our clients and partners

INTELLIGENCE

Policies - Markets - Competition - Technology
 Energy & climate
 Power generation, renewables & clean technologies
 Companies / Manufacturers

ENERGY - CLIMATE SCENARIOS

Demand / prices / power generation projections
 Energy transition pathways
 Country / province / metropolitan level analysis

POLICY EVALUATION

Energy efficiency & demand analysis
 Emission reduction options & costs (MACC)
 NDC quantification

MARKET RESEARCH

Operational, Technological & Strategic Marketing
 Hydrogen, PV, batteries, energy management, off-grid
 Power network flexibility

CUSTOM DEVELOPMENT

Intelligence platforms & databases
 Indicators & statistical observatories
 Forecasting models
 Websites & apps

- On-demand training sessions to meet specific objectives and requirements
- Efficient trainings to ensure a fast competences acquisition and teams quickly operational
- Led by qualified energy economists, modellers and data scientists

ENERGY MODELLING

Design and Interpret Energy Forecasts
 Introduction to energy & climate modelling

ENERGY EFFICIENCY

Energy Efficiency and CO₂ Reduction
 How to measure energy & CO₂ savings?

ENERGY DATA SCIENCE

Handling and Analysing
 Energy & climate statistics

HELPING YOU SHAPE THE ENERGY TRANSITION
