Enerdata - World LNG Database

World Liquefied Natural Gas Database is your portal to detailed information on global LNG trade. This service provides global coverages in all main industry areas:

- World Liquefaction Plants
- Regasification Terminals
- LNG Carriers
- LNG Contracts
- Total LNG Capacities
- World LNG Flows by Country
- LNG Imports by Country of Origin
- LNG Import and Export Prices by Country

Why subscribe?

- Quarterly updates including follow-up on each product
- World coverage of the LNG Industry
- Clear and well-structured Excel database
- Sources from top gas companies and specialised press
- Similar information flow for each country
- Valuable assistance from our data specialists to support your LNG analysis
Service overview:

- **World Liquefaction Plants**: Description of existing and plants in project (see detail next page)
- **Regasification Terminals**: Description of existing and plants in project (see detail next page)
- **LNG Carriers**: Description of operational and under construction vessels.
- **LNG Contracts**: Importing and exporting country and company, start and end year, plateau volume in bcm and in Mt and LNG contract duration
- **Total LNG Capacities**: Liquefaction and/or regasification capacity by country in Mt/year.
- **World LNG Flows by Country**: LNG production, LNG trade balance, LNG imports and exports for each country (in mcm).
- **LNG Imports by Country of Origin (mcm)**
- **LNG Import and Export Prices by Country**: Import and export prices in US$/MBtu
- **Data export in .csv format to integrate your own databases and models**

Regasification Terminals Details:
- **Zone & country**
- **Location**: name of the city/region where the facility is located
- **Facility name and type**: onshore, FSRU (Floating Storage and Regasification Unit)
- **Operating company**
- **Ownership**
- **Terminal Status**: Planned, approved, under construction, operational, closed, cancelled, etc.
- **Commissioning & decommissioning year**
- **Storage capacity**
- **Number of tanks**
- **Tanks’ capacity**
- **Maximum vessel size (m3)**
- **Peak capacity (mcm/d)**
- **Nominal Operational Capacity (mcm/d)**
- **Operational Capacity (bcm/year and Mt/year)**
- **Investment (US$m)**
- **Comment**
- **Source Details**

Liquefaction Plants Details:
- **Zone & country**
- **Location**: Name of the city/region where the facility is located
- **Facility name and type**: Onshore, FLNG (Floating LNG)
- **Operating company**
- **Ownership**
- **Status**: Planned, approved, under construction, operational, closed, cancelled, etc.
- **Commissioning & decommissioning dates**
- **Storage capacity**
- **Number of Tanks**
- **Tanks’ Capacity**
- **Operational Capacity (bcm/year and Mt/year)**
- **Investment (US$m)**
- **Comment**
- **Source Details**

**LNG Carriers:**

Data covers all operational LNG carriers and under construction carriers in the world.
- **Vessel ID (IMO number)**
- **LNG ship name**
- **LNG ship owner**: Name of the owner company
- **Operating company**: Name of the operating company including under charter agreements
- **Shipbuilder**: Name of the builder
- **Status**: Operational, in order, out of service
- **Country of build**: Name of the country where the ship was built
- **Hull**: Contract year
- **Year of first delivery and withdrawal**
- **Flag country**
- **Speed of the ship**
- **Number of Tanks**
- **Capacity (m3)**
- **Price (US$m)**
- **Project and Train**: Name of the liquefaction train
- **Trade**: Name of importing and exporting country
- **Comment**
- **Source details**
About Enerdata
Enerdata is an energy intelligence and consulting company. Our experts help you to tackle key energy and climate issues and make sound strategic and business decisions. We provide research, solutions, consulting and training to key energy actors worldwide.

Enerdata Clients Include:

More Enerdata Information Services

Global Energy & CO₂ Data: Regularly updated global energy market database providing supply, demand, and prices for all energy sources by sector, plus GHG emissions. Covering 186 countries from 1970 onwards.

EnerTram - Energy Transition Monitoring: In-depth, analytical, country reports on the energy transition in emerging markets.

Power Generation Watch: Daily monitoring of key updates in the power generation and storage equipment markets.

EnerMonthly: Monthly updates with detailed information on production, imports, exports and consumption for over 40 OECD and non-OEDC countries.

EnerFuture: Annual forecasts through 2050 (based on the globally recognised POLES model) for energy demand, prices, and CO₂ emissions by sector and for all energy sources. Power generation forecasts by fuel source.

Power Price Projections: Three sets of annual wholesale electricity price projections backed by the globally recognised POLES model.

EnerFuture MACCs: Assess climate policies, evaluate cost and efficiency, and simulate carbon markets with our CO₂ Marginal Abatement Cost Curves tool.

Odyssee: Unique database on energy consumption by end-use for the EU and Norway. Exclusive energy efficiency indicators.

EnerDemand: Analyse energy consumption and efficiency trends across the world with energy consumption data by sector and end-use, efficiency trends and drivers.

Country Energy Demand Forecasts: Energy demand forecasts for oil, gas, coal, and power consumption by country, by sector, and by usage through 2030.

Power Plant Tracker: Screen, monitor, and analyse the development of power generation assets. Powerful embedded analytics. Exclusive insight on Levelized Cost of Electricity and Capital Expenditure from our CAPEX & LCOE module.

World Refinery Database: Monitoring of new and existing refineries.

World LNG Database: All key information and data about world LNG markets.

Key Energy Intelligence: Search by energy topic, energy source (electricity, natural gas, oil, coal, biofuels), utility company (44 included), or CO₂ emissions.
