EnerMonthly

Monthly energy data on key energy markets

At Enerdata, we believe in providing the most up-to-date and quality information. Our latest online service, EnerMonthly, contains up to 300 key energy data series, feeding your analysis and data management system with the best sources in a couple of clicks.

Gain time by eliminating time-consuming data sourcing and stay in tune with market trends through detailed information each month regarding production, imports, exports and consumption for over 40 OECD and non OECD countries.

Why subscribe?

- Monthly update
- Consistent data sets for all energies
- Selection of the most relevant data sources
- Global coverage: 40+ OECD and non OECD countries, including detailed energy data on states/provinces for the US and China
- Spot prices
- Gas import prices
- Economic indicators and balances
Key features:

- Up to 300 series/countries*
- Monthly update for all energies:
  - Crude oil
  - Petroleum products
  - Natural gas
  - Coal
  - Electricity
  - Biofuels
- Detailed data series on:
  - Production
  - Imports/exports
  - Consumption
- Premium statistical sources (both international and regional)
- Data export in .csv format to integrate your own databases and models
- Spot prices, gas import prices, economic indicators and balances
- Country-level information, with further details by state/province in the US and China.

* For 28 EU countries - up to 100 series for other countries

Detailed data series updated each month:

- Electricity
- Natural gas
- Petroleum products
- Crude oil
- Coal

- Production
- Import
- Export
- Consumption
Global coverage

EnerMonthly provides a detailed overview of key industry data in a timely manner. This in-depth database allows you to view changes in oil, gas, coal and biofuel industries. Whether it be production, trade, import/export or stock, EnerMonthly highlights important evolutions in the energy industry for key countries.

Gain time by:

• Eliminating painful data sourcing on a monthly basis
• Feeding your data management system/forecasting models in just few clicks
• Benefiting from the best quality sources for each data series

Monthly update for 40+ OECD and non OECD countries

- Argentina
- Australia
- Austria
- Belgium
- Brazil
- Bulgaria
- Canada
- China

Power Companies

Oil and Gas Companies

Equipment and Industry

Consultancies and Financial Institutions

International Organizations and Government Bodies

Research Centres and Universities

Enerdata Information Services

Global Energy & CO₂ Data: Regularly updated global energy market database providing supply, demand & prices for all energy sources by sector and GHG emissions covering 186 countries from 1970 onwards.

Global Energy Research: More than 110 country reports. Daily news feed included.

EnerMonthly: Monthly update with detailed information regarding production, imports, exports and consumption for over 40 OECD and non OECD countries.

EnerFuture: Annual forecasts until 2040 for energy demand & prices for all energy sources & CO₂ emissions by sector. Power generation forecasts by fuel source are also included. Energy forecasts are based on the globally recognised POLES model.

EnerFuture MACCs: Assess climate policies, evaluate cost and efficiency, and simulate carbon markets with our CO₂ Marginal Abatement Cost Curves tool.

Odyssee: Unique database on energy consumption by end-use for 28+ EU members. Exclusive energy efficiency indicators.

EnerDemand: Analyse energy consumption and efficiency trends across the world. Provide energy consumption data by sector and end-use, energy efficiency trends and their drivers.

Country Energy Demand Forecasts: Energy demand forecasts of oil, gas, coal and power consumption by country, by sector and by usages up to 2030.

Power Plant Tracker: Screen, monitor and analyse the development of power generation assets. Includes powerful embedded analytics. Provides exclusive insight on levelized costs of electricity and capital expenditure through the optional module: CAPEX & LCOE.

World Refinery Database: New and existing refineries monitoring.

World LNG Database: All key information and data about world LNG markets.

Key Energy News: Search by energy topic, energy source (electricity, natural gas, oil, CO₂ emissions, coal, biofuels and heat) or utility company (44 utilities included).
