

Job title: **Energy and Climate markets Analyst**

Company:

Enerdata is an independent Research & Consulting firm specializing in the global energy industry and markets (oil, gas, coal, power, renewable and carbon markets) created in 1991.

Leveraging extensive quantitative databases, proven methodologies and advanced forecasting models, our experts have more than 25 years' experience in economics, policy and technology issues shaping the energy industry.

Enerdata provides data, research, solutions, consulting and training to hundreds of clients worldwide: major Oil & Gas companies, electric utilities, equipment companies, consulting firms, banks and public organizations.

The assignment:

In the context of its strong development, Enerdata recruits an Energy Markets Analyst to join the Research team in Grenoble, France. The Analyst will mainly maintain and develop the energy and climate markets watch online service. In addition, the Analyst will contribute to update and develop others information online services and will carry out custom research.

The main tasks assigned to the successful recruit are:

- To write news on energy and climate markets and key actors
- To prepare reports, illustrating graphically and translating findings into written text, with different formats: short analysis, reports or power point presentations
- To gather market data on energy sectors, companies and energy infrastructures.
- To conduct in-depth analysis

Your competences:

The candidate will show the following skills:

- Excellent copywriting skills are mandatory
- Fluency in English and French is required (native English is a plus)
- Proven knowledge of a range of energy-related subjects is preferred: power markets, regulatory issues (including EU energy packages), oil & gas markets, renewable energies, carbon markets.
- Strong analytical and research capability
- Hands-on, curious, team player
- Software: MS Office and web search tools

Contract type: Full time position

Starting date: Spring 2019

Location: Grenoble, France

Education: Energy Economist, Institute of Political Studies, IFPEN, Specialized MSc, Journalist/Newsman

Level of experience: at least 2 years

To apply, please send your CV and cover letter at: careers@enerdata.net
