

# Job description: Head of Research team

Grenoble, France – Full time position (part time and remote work can be considered)

2022.Research.2

## Position and Working Environment

**Enerdata** is looking for a manager to lead the Research team which is specialized in the **analysis of the world energy markets, energy transition and climate change topics**. The Research team includes 10 qualified energy-economists. Its activity has been growing in the recent years driven by 3 main pillars:

- **Energy-climate intelligence:** newsletters, reports and analysis covering energy-climate and technology topics
- **National energy and climate reports**
- **Studies on energy costs and fiscality**

The head of the Research team will have to strengthen the expertise on these 3 pillars and contribute to Enerdata's development **with at least one additional area of expertise** (e.g: physical risk-adaptation, mineral resources, land use, energy regulation, climate finance, other...). This is an opportunity to join a team of energy-climate experts, a fast-growing company and to get involved in missions with concrete impact on energy transition.

## Responsibilities

- Lead the Research team
- Ensure timely and professional customer service, as well as quality control
- Contribute to customer projects and project management
- Develop a new area of expertise
- Develop existing or new products/solutions for our [Information Services offering](#)
- Participate in key publications and communication events
- Participate to the Enerdata management team

### Key Products and Recent Missions

- ▶ [Key Energy Intelligence](#)
- ▶ [Global Energy Research](#)
- ▶ [Price and cost study for the European Commission](#)
- ▶ [Study on energy subsidies for the European Commission](#)
- ▶ [Enerdata's publications](#)

## Skills

- Experience in management and business development
- Excellent understanding of international energy markets and energy and climate transition related topics
- Strategic thinking
- Outstanding written and oral communication skills. English and French required, another language is a plus.
- Strong research, analytical and problem-solving skills

- |                        |   |                     |  |
|------------------------|---|---------------------|--|
| ▶ <b>Contract type</b> | Full time   | ▶ <b>Location</b>   | Grenoble (France) or remote              |
| ▶ <b>Start date</b>    | S2, 2022  | ▶ <b>Experience</b> | 10+ years in related fields of expertise |
| ▶ <b>Study level</b>   | Advanced university degree in engineering/economics |                     |  |
