

Position and Working Environment

Enerdata is looking for a Junior Energy-Climate (E-C) Analyst to join the Research & Innovation team. The position will deal with developing a new service line dedicated to financial and corporate actors' needs on Paris Agreement journey. As market demand for robust E-C methodologies and models is growing, Enerdata sees an opportunity to further take part in the Climate action. The internship will be an excellent occasion to join a team of energy experts, learn on cutting-edge topics in a fast-growing company and contribute to its development.

Tasks

The person will be integrated into the Research & Innovation team and will contribute to:

- Market studies on emerging sustainability issues for financial actors (TCFD-linked transition risk of portfolios, scenario analysis, etc.) and large companies (Science-based targets along with long-term decarbonation plans, energy-related projection data, etc.)
- Methodology development with Proofs a Concept (i.e. Paris-compatible alignment methodologies for financial actors, etc.)
- Research & Innovation ongoing projects
- and products (Power Plant Tracker, RES auction database)

Related Products and solutions

- ▶ [Energy price projections for corporate decarbonization strategy](#)

Skills

- Driven by energy and climate issues
- Rigorous, strong analytics, curious and results oriented
- Extensive knowledge of MS-Excel, mastering of VBA is a plus
- Fluency in English and French language is a must; Another European language is a plus
- A prior experience in Sustainable finance or Energy-Climate field and related ESG issues would be appreciated

▶ **Contract type** 6 months internship ▶ **Study level** Engineer/Economist, MSc ▶ **Start date** Second semester 2021(Sept.) or First semester 2022 (Jan.) ▶ **Compensation** Motivating package ▶ **Location** Grenoble (France)

To Apply

Please send your résumé and cover letter to internships@enerdata.net, indicating "Junior Energy-Climate Analyst - 2021.Research&Innovation.2" as a subject.
