

Position and Working Environment

Enerdata is a fast-growing company aiming at *accelerating the decarbonisation of our society and build a more sustainable world*. We are looking for a senior expert to join and reinforce the company's Energy Efficiency & Demand department. The expert will be directly involved in energy demand prospective studies on global and regional energy markets, involving analysis, modelling, clean development strategies, policy evaluation and consulting on energy business opportunities.

Tasks

The position will deal with the development and valorisation of in-house models, including the bottom-up energy demand model EnerMED. This is a unique opportunity to join a team of energy experts and contribute to the company's development.

The expert will support Enerdata's customers in building and implementing their decarbonisation pathways:

- Realisation of consulting projects for private and public clients in the energy sector
- Tailored client work to enhance and develop modelling and analysis tools
- Production of market analyses and briefs
- Research programs for international institutions

Recent Contracts & Missions

- ▶ [Energy resource forecasting and carbon neutrality in France](#)
- ▶ [Monitoring and evaluation of Tunisia's NDC](#)
- ▶ [Energy efficiency and renewable roadmaps](#)

Skills

- **15-20 years of international experience**
- Extensive knowledge of **energy demand prospective analysis**
- Experience in **energy demand modelling**, and in **assisting countries** in the development of energy & climate strategies, including **energy efficiency** policies & indicators, **energy sufficiency**
- In-depth knowledge of a specific sector (e.g. transport, industry) is a plus
- Ability to manage consulting contracts, organisation of resources and client relationship in an international context
- Strong computer skills, at ease with quantitative and computational environments
- Fluency in English and French is a must; another language is a plus
